Contract Awarded By County

Roger Heitzmann, contractor, Bay St. Louis, was awarded the contract for the erection of a County Home at the recessed meeting of the Board of Supervisors Monday morning.

Heitzmann, who had complied with all legalities in presenting bids for the construction of this work according to plans and specifications of the Board as drawn up by their architect on the two occasions when the Board advertised for bids on the work, says he has laid out the site for the Home for inspection and approval by members of the Board.

He also said that as soon as a performance bond is secured by the Board President, Jack Lott, and work will start immediately. The specifications call for completion of the structure within two hundred working days from the date of signing the contract.

Heitzmann marked the site for building approximately seven hundred feet retired from Dunbar Avenue to the rear of the grounds. This ground was purchased by the Board of Supervisors in 1955 at which time they had proposed to have a County Hospital erected to the front and the Home built on the rear portion.

When this building is completed it will house the aged of the county. The present location of the County Home is along the banks of Bayou LaCroix on the Kiln road. The change of location was deemed essential due to the fact that high tides and stormy weather made it necessary to remove the inmates frequently as the rising waters of the bayou inundate the area, frequently rising to dangerous heights threatening the buildings.

"Dream Day Room" At RFA Hotel

Adopting a "Do It Yourself" slogan, personnel of company H, RFA Regt. recently rolled their sleeves, pulled out their hammers and saws and applied much ingenuity in remodeling their information Center.

Many hands were applied to the job, from K. P. to Company Commander. Capt. William L. Denend, then Company Commander, assisted by SP3 Bill Zimmerman, sketched their idea of a dream dayroom and TI center. Having completed the blueprints of things to come, there was only one question left unanswered, who would execute the plans?

This question mark was erased by M/Sgt. Clinton L. Cottrell and Sgt. Joaquin C. Cruz, two soldiers with years of carpentry experience.

With their hammers knocking like two woodpeckers on a telephone pole, the two soldiers gave the center a face lifting which has made it the model TI center of the RFA Regiment.

Angled streamline boards for display of news replaced an old-fashioned upright board; neat built-in shelves were substituted for tables—magazine racks appeared.

Meanwhile, a new C. O., 1st Lt. Amos M. Van Bibber, assumed command and continued the project.

cents would this mean to the average tax payer?
A. The average assessment in some areas of the county is \$500, and this would mean \$1.25 more than last year in taxes.

Q. What are the regular school taxes (not for bonds)?
A. On all of Hancock County School Districts, the levy is 10 mills for school maintenance, and 12 mills for our contribution toward state program. This makes a total of 22 mills, (of which 20 is paid by homestead exemption).

Q. Is this not lower than many other city and county districts in other parts of the state?
A. Yes, it is and is well below the legal limit permitted by law.

Q. We understand if our bond issue goes through, and the plan is accepted by the State Educational Finance Commission, we will receive \$215,000 from state building funds. Will we have to repay this?
A. No, and it will not cost us one penny more in taxes. It is provided under the state program, passed in 1953, to assist in reorganizing and improving the school program. It is based on \$12 per white child and \$15 per negro child per year, and under approved plans, this may be anticipated for 10 years.

(The loan is 75% of the amount and the other 25% takes care of interest and all costs until each yearly credit retires it.)

Q. Will we get this state money if the bond issue fails?
A. No, it is granted only when a plan for improved and more efficient operation is presented to the Commission and accepted by them. So many requests for funds are being made that those making application first have the best chance for this assistance.

Q. If the bond issue should fail to carry, what would be done about the county schools?
A. It is hard to say but a few things are clear:

1. There would be no high school in the county district.

2. There would be no state funds for building as explained above.

3. It is quite possible that there would be higher millage for school maintenance, in order to pay tuition to other districts to take our children, and meet increased costs of transportation.

In addition, the parents and citizens of the county would have lost the best opportunity they have ever had to take a big step forward in bringing better schools to their children. If, for selfish reasons or because of prejudice we fail to vote for this measure, it will be the children who suffer.

another way, as did Farmer "A,"
who on 120 acres could not suc-
ceed with an ordinary corn crop
and soybeans rotation. His over-
head was too great to give
him the net he required. He
was a home body and liked chick-
ens and cows. He began remod-
eling the old barn with an eye
to labor-saving and health of his
growing flock and herd. He wound
up with a laying flock of 2,000
leghorns, and his 22 holsteins
averaged 10,000 pounds of Grade
A milk annually. These two
sources grossed \$18,000 from
which he netted 18,000 to \$10,-
000. The farm also produced
part of the family food supply.
To accomplish this, he had the
help of his family, paying nothing
for labor.

Decency Is In Your Hands

By Earl James Keller, Director of the Christian

WHAT WE FOUND IN A Uni-
versity publication shocked the
Philadelphia professor of a
large printing firm. He pointed
out to the management an
article that described a tale of
depravity in sordid brutal detail.
The company couldn't in con-
science print the article, but
when they told the university
faculty they were rewarded by
having the printing contract
taken away.

Because the company refused
to use their equipment "to
turn out such
lurid trash" they
took a financial
loss. It took
courage to be
decent. And it
takes people just
like you.

AS AN INDIVIDUAL you are
in a strong position to shape
public opinion towards what is
normal and decent. All articles,
books, programs and movies are
bidding for your attention. They
depend on you for survival.
You are the judge. The more
selective and discriminating you
are, the better product you are
likely to get. You are free to
approve or disapprove. You hold
the purse strings. You have the
power of the pocketbook (no
matter how slender it may be)
to back up your choice. The
tone of most literature and en-
tertainment will be just about

what you—and others like you—
demand.

HERE ARE a few tips that you
might find helpful:

1. AVOID TWO EXTREMES
— of being too prudish on one
hand, or of being too broadminded
on the other. Remember what Will
Rogers once said: "What we
need today are cleaner minds
and dirtier fingernails."

2. GIVE CREDIT where credit
is due: In seeing abuses, take
care not to overlook the good
that is being done.

3. DON'T BE DECEIVED—by
those who defend an immoral
production by saying: "But it
was so well done!" The more
artistically or cleverly presented,
the more harmful any such work
can be. Remember what Will
Rogers once said: "What we
need today are cleaner minds
and dirtier fingernails."

4. PRAY DAILY — that the
great and powerful channels of
communication will be used for
good to all and harm to none.

5. ENCOURAGE YOUNG
PEOPLE — who have Christ-
like ideals, ability and deter-
mination to consider taking up
careers in the writing end of
newspapers, magazines, books,
movies, television and radio.

Keep in mind too, that decency
will demand of you and those
you encourage that you pay a
price—and often a heavy one.
The Philadelphia printer lost
business. But this is the price
of imitating Christ. One wins
eventually by losing temporarily.
Our Saviour lost in many ways
in order to win for everybody.

Legion Auxiliary Has Special Program At Monthly Meeting

A special program in observ-
ance of Pan American Week, Apr.
8-14 was given at the monthly
meeting of the American Legion
Auxiliary.

Mrs. Gilbert Gayaut, Pan Ameri-
can Study chairman, invited three
girls from Honduras who are now
attending St. Joseph's Academy.
They were Conchita Consuelo Bo-
gran, Ella Edith Caries, Yvonne
De Costa Gomez.

Mrs. Gayaut read a copy of
her essay on Honduras that has
been submitted in the state Aux-
iliary Contest. An informal dis-
cussion with the girls about Hon-
duras followed.

A donation for the Care program
for Honduras was given by the
unit.

Mrs. Esther Oeschmann, Gen-
eral Chairman for the American
Cancer Society Fund Campaign
for Hancock County, presented a
tape recorded program on Can-
cer which Mrs. Oeschmann made
and was given over Gulfport Sta-
tion WDEB last week.

A total of 107 pounds of used
clothing was sent to "Save the
Children" Federation. Clothing
is still being collected.

Mrs. Theo Tudury and Mrs. W.
D. Bourgeois were hostesses for

the meeting and served refresh-
ments in keeping with the Pan
American theme.

PRODUCTION OF BEEF, MILK DEPENDS ON SOIL NUTRIENTS

Grazing animals, like field
crops, are converters of soil fer-
tility into marketable products.
And, like field crops, they can-
not convert fertility if it is not
there. The science of pasture
building, while a relatively re-
cent development in comparison to
other branches of agronomy, is
due for considerable attention
during the next decade or so and
the results should be interesting.
It may be that pounds of beef or
milk will become familiar mea-
surements in the manner of bush-
els of corn or bales of cotton.

CONGRESSIONAL SIDELIGHTS

CONGRESSMAN WM. M. COLMAN
CIVIL WRONGS

The Behind-the-scenes maneu-
vering and skirmishing for and
against the "civil wrongs" legisla-
tion are feverishly active. The
bill in the House has been re-
ported out of the House Judiciary
Committee and is presently sty-
mied in my House Rules Com-
mittee. Every time the Rules
Committee meets the proponents
of the legislation make some par-
liamentary move to get it out
and to the floor. In the Rules
Committee those who favor the
legislation outnumber those of
us who oppose it. Therefore, it
is merely a question of time when
it will be cleared to the floor
of the House. In addition, Con-
gressman James Roosevelt of Cal-
ifornia, the eldest son of the late
FDR, has filed a petition for the
discharge of the Rules Committee
from further consideration of the
bill. Under the rules of the
House, if such a petition is sign-
ed by a majority of (218) of the
House Members, the Committee
on Rules is discharged from fur-
ther consideration and the bill
is automatically brought to the
floor of the House. Since a
great majority of the so-called
Northern Members are concerned
over the Negro vote, it is again
only a question of time before
such a petition would be signed
by the required number of Mem-
bers.

Over at the other end of the
Capitol, the bill is still in the
Committee on the Judiciary of the
Senate. Chairman Eastland has
so far been successful with the
able assistance of Senator Sam
Ervin of North Carolina in hold-
ing the bill in Committee.

Of course, as we have repeat-
edly pointed out, once these bills
come to a vote they will pass.
The strategy has been to defray
them as long as possible on the
theory that the Southern Senators,
armed with the weapon of the
filibuster, can kill them in the
Senate.

THE BUDGET

The House has passed four
appropriation bills for financing
the various agencies of the Gov-
ernment. Substantial reductions
have been made in all of these
defense. If we are successful in
bills. The big ones are yet to
come, foreign aid and military
cutting these in the same ra-
tio that we have cut the smaller
bills in the House, the President's
budget will have been cut be-
tween 4 and 5 billion dollars.

None of the bills has been con-
sidered by the Senate as yet.
Whether that body, which has
traditionally restored the House
cuts, will sustain the House re-
mains to be seen.

Abe Lincoln's firelight read-
ing habits may not have been as
bad as they sound. Glare often
is actually more of a strain than
insufficient light. The ideal read-
ing situation is a 100-watt light
about 20 inches from the page,
with its light coming over the
shoulder. Murine Company studies
show. Glare from wrongly placed
lights, shiny walls, glass, highly
glazed paper or other sources
should be avoided.

Southern Bell T. & T. Co. Gets Second Tribute In "Great Inventions"

The telephone, symbol of the
Genius of Alexander Graham
Bell, recently joined the ranks
of "Great Inventions" in the
Smithsonian Institution in Wash-
ington, D. C., with the opening of
a story telling exhibit. At cere-
monies attended by telephone in-
dustry and Smithsonian officials,
Dr. Melville Bell Grosvenor, Pres-
ident of the National Geographic
society and grandson of Bell,
formally opened the exhibit to
the public.

Mr. Dabney, local Southern Bell
manager, pointed out that this
is the second tribute to the genius
of Bell that has been dedicated
in recent months. In August,
1896, Canada perpetuated the
inventions of the telephone in
inventor with the opening of the
Alexander Graham Bell Museum
at Baddeck, Nova Scotia, near
the distinguished scientist's be-
loved estate, Beinn Bhreagh. Be-
ginning with the "Galvanic Music"
with which Charles G. Page of
Massachusetts started the learned
worker in 1837, the Smithsonian
exhibit traces telephone changes
through to the most recent ap-
plication of electronic devices, ac-
cording to Mr. Dabney.

Featured in the exhibit is the
varied work of Bell, including
instructions that he presented to
the institution a number of years
ago, as well as reproductions of
such curious apparatus as Bell's
humming ear phonograph, a
through which he learned of the
power of sound waves to set
relatively heavy objects into
vibration. These and instruments
from other inventors record the
period of the birth of the tele-
phone and the telephone com-
munication systems. Since that
memorable evening of March 10,

Another blow and rain Tuesday night and another set back in fishing. Won't the weather ever get right again? That's the question being asked by local fishermen.

No good reports on fishing, crabbing and floundering.

Mr. Jos diBenedetto goes out regularly on the Highway bridge. He says he has been catching a couple of trout each time. Missed a big one Saturday. He was using a plug.

Lots of folks will be going to church on "Good Friday" and lots will try fishing, golfing, etc. Its best to go to church first! Of course, Friday is a holiday.

Those golf bugs are almost as bad as mosquitoes. The bite is just as bad and lasts longer. Joe Kern has purchased some clubs and as the saying goes "Is going nuts about the game. What next Joe?"

Alden Mauffray shot his first 44 for nine holes Sunday. He was so proud of his score that he had the card "notarized."

Sorry to hear that some of the boys working with the Western Electric Company and who have been here for several months are being transferred to other parts. Among them are Carl Schoeffler, Henry Vaden and Wayne Ray. They are all good sports and also ardent fishermen. Hurry back!

Henry Lang was throwing the net for some fish out front this week. He said he was fish hungry. Don't know how he made out.

The champion play-off at the Pass Isles Golf Course is getting under each week. An elimination affair, new winners are popping up daily. To prove that golf is not an old man's game, among the younger players in the tournament are Connie Welch, 13 years of age, class D, and Robert Genin, Jr., 15, Class C, are still in the running. Good luck, boys! These youngsters are good golfers and are defeating men twice their age.

Others still winning in their respective class are Dick Merritt, David McDonald, C. C. McDonald, Jr., J. S. Blanchard, etc.

That was some alligator Luke Saucier caught last week near Kiln. It measured over ten feet.
